RealMOD™ Green W² 2x qPCR mix, 100rxns, 25350

2,300.-

*** Until out of stock

- High efficiency for targets with low copy number and Excellent sensitivity with high GC contents

2X PCR Master mix Solution (i-Taq), 0.5 ml x 2 vials, 1ml / 25027

1,950.-

*** Until out of stock

- Ready to Use, High purity Taq thermostable DNA Polymerase with optimization buffer

RedSafe™ Nucleic Acid Staining Solution, 1 ml (EtBr Alternative) / 21141

1,990.-

**SAVE
50%**

- EtBr Alternative, excitation maxima 309 and 419nm

Easy-spin™ Total RNA Extraction Kit, 50rxns, 17221

6,950.-

- A combination of phenol solution and spin column without Alcohol PPT for RNA extraction within 30 minutes, High yield and High purity

G-spin™ Total DNA Extraction Mini Kit, 200 rxns / 17046

11,600.-

- Extract DNA from Whole Blood, Cell, Tissue, Fixed tissue and Bacteria Include 8 kinds of protocol within 20 to 30mins

Maxime™ RT PreMix Kit, 20 ul / 25081, 25082 Oligo dT Primer, Random Primer

3,500.-

- Dried & aliquoted RT PreMix Kit for simple and rapid cDNA synthesis from RNA

DNA-spin™ Plasmid DNA Purification Kit, 200 rxns / 17098

4,400.-

- Spin column type for separation/purification up to 20ug, 30 kb of high purity for plasmid DNA

MEGAquick-spin™ plus Total Fragment DNA Purification Kit, 200 rxns / 17290

5,800.-

- Clean up from PCR product and agarose gel with Product 65 bp ~ 10 Kb size with high purity
