### DNA Sequencing Services

Description	Unit	Promotion
Sequencing Service (<5 rxns)	Reaction	165.-
Sequencing Service (≥5 rxns)	Reaction	150.-
Difficult Sequencing	Reaction	350.-
PCR purification	EA	70.-
Agarose Gel Extraction	EA	90.-
PCR & Purification	EA	300.-
Sequencing Primer Synthesis (25 nmole with HAP Purification)	Base	12.-

### Additional Services by Sanger method

Category	Description	Description 2	No. of Samples	Promotion
Gene Scan (Fragment analysis)	PCR Product	Gene Scan running	Run < 5 rxns	165.- / sample
			Run ( 5 - 95 well)	150.- / sample
			Run 96-well plate (96 well)	11,880.- / plate
Microbial Identification			NOTE	Promotion
Individual	Microbial ID (1rxn)			450.-
	Microbial ID (2rxns)			700.-
Package	Microbial ID (23s rRNA)		2 times of PCR and 4 rxns	1,120.-
	Microbial ID (Unknown)		3 times of PCR and 2 rxns	1,120.-
Additional Service: align + blast				150.-

✓ It's the service that results by analyzing 16s and 18s, 25 ~ 28s rRNA and internal transcribed spacer (ITS) sites.
