Oligonucleotide Synthesis Service

Download Primer Order Sheet

CLICK HERE

Scale	Yield	Promotion	≥ 200 mer	Purification (PAGE, HPLC)
25nmole	3 ODs	12.-	9.-	N/A
50nmole	6 ODs	15.-	12.-	1,000.-
200nmole	9 ODs	24.-	20.-	1,200.-
400nmole	10 ODs	39.-	32.-	1,600.-
1µmole	20 ODs	65.-	55.-	2,000.-

- ✓ Please contact our sales staff if need any modifications or probe
- ✓ Over 35mer can be synthesized as 50nmole with HAP purification

Fragment Synthesis Service

Download Order Sheet

CLICK

Sequence (bp)	100-500	501-750	751-1,000	1,000-1,250	1,251-1,500	1,501-1,750
Fragment Gene	4,080.-	5,840.-	6,960.-	9,840.-	11,600.-	13,360.-

- ✓ Please contact sales team if fragment is longer than 1,750bp
- ✓ Fragment products can be serviced from 100bp to 3,000bp, and 500ng of DNA is provided

Gene Synthesis Service

Codon optimization-free, 2-4ug of lyophilized plasmid,
Cloning into our standard pUC57-Amp vector if length
of gene is less than 429bp.

Price is **THB6,850.-** 8 working days

- ✓ Expression Vector: pET28b, pET21b and pET series vector
- ✓ Free Vector: pUC57-AMP, Kan, SP, pBluescript II SK-AMP (+)
